

CELEBRATING LIFE IN RECOVERY

with **CHERI PETERS**

Venue: **Waitara SDA church**
Corner Alexandria Parade and Park Avenue

Cheri Peters had plenty to recover from...

She knows the rejection of a mother who tried to abort her.

She suffered sexual abuse from relatives who used her.

She knows the shame of being virtually illiterate and living homeless on the streets of LA, and forced to dance in strip clubs from age 13.

She has been through the horrors of life in a drug-fuelled motorcycle gang. She knows the desperation causing one to choose suicide because nothing could dull the pain inside.

Cheri is now celebrating her life in recovery! She has accepted the truth about her past. She has found self worth from people who cared. She discovered the unconditional love of a God who loves her, and helped to put the pieces of her life back together.

Cheri has dedicated her life to help others find meaning and purpose in their lives.

Come and hear Cheri share her inspirational story!
